

THE PINNACLE OF  
CD/DVD PRODUCTION

# PRODISC 200

- 8 DVD recorders
- Standalone, No PC required
- 200 Disc input capacity
- Fast & reliable robotics
- Multi image support
- Internal hard drive
- Small footprint

## AUTOMATED STANDALONE CD/DVD PRODUCTION

The **Datank Prodisc 200** offers simple, automated CD/DVD duplication. With 200 disc capacity, 8 DVD recorders and a powerful onboard controller, the **Prodisc 200** surpasses all your duplicating requirements. **Datank's** renowned robotics provides reliable and fast automation which eliminates all the manual & labour intensive processes making the system one of the most robust duplicators in the industry. Its ultra small footprint makes the **Prodisc 200** is the ideal solution for any office or production environment.

## SIMPLE BUT VERSATILE

The system is controlled by the industry's leading controller which allows users to submit jobs via an LCD display. With the **Prodisc 200** users can also store multiple CD or DVD images to the internal hard drive making duplication simple, fast and reliable.

For key jobs, the **Prodisc 200's** verification process provides first class quality control, allowing both master and copied disc to be compared to give complete data integrity.

## Specifications

### Configurations

8 DVD recorders

### Disc Capacity

200 disc input capacity

### System Requirements

Built in controller & hard drive

### Supported Client

#### Operating Systems

CD-ROM Mode 1 & 2, CD-XA 1 & 2, Mixed Mode, CD-DA, Hybrid, Video CD ISO9660, Video CD, DVD Video DVD-R, DVD-R Dual Layer

### Physical Dimensions

H52.9cm x W42cm x D62.3cm

### Weight

26.3Kg

### Power

100-240V AC, 50/60 Hz  
500W Max

### Environment

Temperature: 5-40°C  
Humidity: 20-80%

### Certifications

CE, RoHS
