

Photo Quality InkJet Disc Printer

Professional choice for quick turnaround, low volume CD/DVD creation and print

The CD Printer 5000 Pro & 5000 Pro Recorder incorporates our latest photo quality disc printer for a quick turnaround, low volume CD/DVD creation and print.

With the version CD Printer 5000 Pro Recorder you will get our unique All in One compact system including DVD Recorder and Burning ROM Software.

High Quality Images

High quality images at up to 4800 x 1200 dpi are created using the latest market leading inkjet technology from Hewlett Packard. Vivid graphics and razor sharp text are achieved by firing 3 pico litre drops at high speed and precision to form the image. The six colour ink system then complements this, delivering a much wider colour blend and gamut to ensure photo realistic images every time.

Easy to use

The CD Printer 5000 Pro & CD Printer 5000 Pro Recorder can be installed in minutes using the USB connector and easy set up menus. Included free in the package to get you up and running straight away are Disc Manager & Label Designer Software as well as Burning ROM Software with CD Printer 5000 Pro Recorder.

Fast and affordable

To increase efficiency and reduce print costs HP's PhotoREt IV colourlaying and colorsmart III colour optimisation systems are embedded. These manage the print functions to balance the image, get the fastest drying time and optimise ink usage.

FACTS
FACTS

FACTS

- Six-colour InkJet Printer
- HighResolution of 4800 x 1200 dpi
- Inkjet Technology by Hewlett Packard
